

ultrafilter continues to extend its global presence: ultrafilter Scandinavia ApS

ultrafilter GmbH – the world-wide leading manufacturer of purification components for compressed air, technical gases and liquids in private ownership – is proud to announce a further enlargement in global presence: **ultrafilter Scandinavia ApS**.

With over 20 years of working experience in compressed air, technical gases and liquids, ultrafilter has appointed one of the leading experts for purification components in Denmark: Per Johnsen. The first and foremost objective is to provide customers with the best solution for their requirements.

With outstanding expertise and local presence, combined with an excellent price/performance ratio, ultrafilter GmbH and their partners will fulfil customer needs in Northern Europe better than anybody else.
